1. Product and company identification

Product Name: Warewash Destainer
UN/ID No.: UN1759 Sodium Percarbonate, Sodium Metasilicate - Corrosive Solid

Recommended use of the chemical and restrictions on use

Supplier: Butler Chemicals, Inc.
3070 E. Ceena CT.
Anaheim, CA. 92806

Print date: K.B.

In case of emergency: HEALTH EMERGENCIES — SPILL EMERGENCIES CALL INFOTRAC 1(800) 535-5053

Product type: Mixture

2. Hazards identification

Classification:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Category</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skin corrosion</td>
<td>Category 1B</td>
</tr>
<tr>
<td>Severe eye damage/eye irritation</td>
<td>Category 1</td>
</tr>
</tbody>
</table>

Signal Word: Danger

Hazard Statement:

CORROSIVE. CAUSES SKIN, EYE AND DIGESTIVE TRACK BURNS. MAY BE HARMFUL IF SWALLOWED OR INHALED.
H302 + H312: Harmful if swallowed or in contact with skin
H314: Causes severe skin burns and eye damage
H335: May cause respiratory irritation

Over-exposure by inhalation may cause respiratory irritation. Inflammation of the eye over-exposure; Redness, Watering and itching. Skin inflammation over-exposure; itching, scaling, reddenning, or occasionally, blistering

Precautionary Statements – Preventions

Wear eye protection/face protection
Wash face, hands and any exposed skin thoroughly after handling
Do not eat, drink or smoke when using this product
Use only outdoors or in a well-ventilated area
Do not breathe dust/fume/gas/mist/vapors/spray
Wear protective gloves/protective clothing/eye protection/face protection
Other protective measures: Use good personal hygiene practices
Precautionary Statements – Response
Immediately call A POISON CENTER or doctor/physician
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so.
Continue rinsing immediately call a POISON CONTROL or doctor/physician
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
Wash contaminated clothing before reuse
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Immediately call a POISON CENTER or doctor/physician
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician, Rinse mouth, Do not induce vomiting

Precautionary Statements – Storage
Store locked up
Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements –Disposal
Dispose of contents/container to an approved waste disposal plant

</tbody>
</table>

4. First aid measures

Eye contact: Rinse immediately with plenty of water for least 20 minutes while holding eyelids apart. Remove contact lenses if able to do so. Seek immediate medical attention
Skin contact: Remove contaminated clothing. Wash exposed area with soap and water. If symptoms persist, seek medical attention. Launder clothing before reuse
Inhalation: Remove victim from dusty environment and allow to blow nose. If symptoms develop, move individual away from exposure and into fresh air. If symptoms persist, seek medical attention. If breathing is difficult, administer oxygen. Keep person warm and quiet; seek immediate medical attention.
Ingestion: Seek medical attention. If individual is drowsy or unconscious, do not give anything by mouth; place individual on the left side with the head down. Contact a physician, medical facility, or poison control center for advice about whether to induce vomiting. If possible, do not leave individual unattended. If aspiration of vomit, turn victim’s head to the side.
General advice Seek medical advice. If breathing has stopped or is labored, give assisted respirations. Supplemental oxygen may be indicated. If the breathing has stopped, trained personnel should begin cardiopulmonary resuscitation immediately.

5. Fire-fighting measures

Flash point: N/A
Flammability of the product: Material not Flammable
Extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Special exposure hazards: Oxidizing
Oxygen released in thermal decomposition may support combustion
Contact with combustible material may cause fire
Contact with flammables may cause fire or explosions
Risk of explosion if heated under confinement
Hazardous decomposition products Oxygen
Other information Keep product and empty container away from heat and sources of ignition
Special protective equipment for fire-fighters: In the event of fire, wear self-contained breathing apparatus. Fire fighters must wear resistant personnel protective equipment

6. Accidental release measures
Personal precautions: Avoid contact with skin, eyes and clothing. Avoid inhalation of dust. Ensure adequate ventilation. Use personal protective equipment.

Environmental precautions: Avoid release to the environment. Collect spillage. See Section 12 for additional Ecological information. Dispose of contents/container to an approved waste disposal plant. Prevent product from entering drains. Do not flush into surface water for sanitary sewer system.

Methods for cleaning up:
- Small spill: Use appropriate tools to Pick up and arrange disposal without creating dust.
- Large spill: Sweep up and shovel into suitable containers for disposal. Wear appropriate protective equipment when handling product. Do not touch spilled material. Call for assistance on disposal.

7. Handling and storage

Handling: Trained personnel should handle this material. Do not breathe dust. Avoid all contact with skin and eyes. Use this product only with adequate ventilation. Wash thoroughly after handling.

Storage: Keep container tightly closed when not in use. Store containers in a cool, dry location, away from direct sunlight. Keep away from intense heat, or where freezing is possible. Storage areas should be made of fire-resistant material. Post warning and “NO SMOKING” signs in storage and use areas, as appropriate. Empty containers may contain residual particulates; therefore, empty containers should be disposed of in accordance with the State, Local & Federal Regulations.

8. Exposure controls/personal protection

Consult local authorities for acceptable exposure limits.

Engineering Controls: Apply technical measures to comply with the occupational exposure limits. Local exhaust ventilation recommended. Eye wash stations. Showers.

Individual protection measures, such as personal protective equipment

Skin and Body Protection: Use impervious gloves. Gloves should be tested to determine their suitability for prolonged contact with this material. If necessary, refer to U.S. OSHA 29 CFR 1910.138.

Respiratory Protection: None required where adequate ventilation conditions exist. If airborne concentration is high, use an appropriate respirator or dust mask. If airborne, concentrations are above the applicable exposure limits, use NIOSH-approved respiratory protection. If respiratory protection is needed, use only protection authorized in the U.S. Federal OSHA Standard (29 CFR 1910.134). applicable U.S. State regulation.

General Hygiene considerations: Handle in accordance with good industrial hygiene and safety practice for diagnostics.

11. Toxicological information

Routes of entry: Eye contact, Inhalation, Ingestion

Toxicological data

Acute oral toxicity
- LD50, rat, 1,034 mg/kg

Acute inhalation toxicity
- LCO, 1 h, rat, >4,580 mg/m3

Acute dermal irritation/corrosion
- LD 10, rabbit, >2,000 mg/kg

Skin irritation
- rabbit, slight irritation

Eye irritation
- rabbit, Risk of serious damage to eyes

Chronic toxicity
- no data available

Remarks
- Harmful if swallowed
- Risk of serious damage to eyes
- Irritating to respiratory system and skin

12. Ecological information

- Hazard for the environment is limited, due to product properties:
  - Weak persistence of degradation products
  - Does not bioaccumulate

13. Disposal considerations

Waste disposal:
The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a license waste contactor. Disposal of this product, solutions and any by products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contract with soil, waterways, drains and sewers.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSUSURECONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.
