1. Product and company identification

Product Name: HIGH END POT SOAP  
UN/ID No.: DOT (U.S.): Not regulated

Supplier: Butler Chemicals, Inc.  
3070 E. Ceena CT.  
Anaheim, CA. 92806

Print date: May 30, 2015

Responsible name: K.B.

In case of emergency:
- HEALTH EMERGENCIES — SPILL EMERGENCIES
  CALL INFOTRAC 1(800) 535-5053

Product type: Mixture

2. Hazards identification

| Appearance: Blue | Physical State: Liquid | Odor: Apple Fragrance |

Classification

- Skin corrosion/irritation Category 2
- Serious eye irritation Category 2
- Hazardous to the Aquatic environment, acute hazard Category 2

Signal Word: Warning

Warning! Harmful if swallowed, 
May causes severe irritation to skin and other tissue. Vapors may be irritating to respiratory tract and may cause irritation, and severe eye irritation. Risk of serious irritation to eyes. Contact with the eyes will cause irritation, reddening and possible chemical burns. Swallowing material may cause burning feeling resulting in irritation and possible chemical burns. Toxic to aquatic life. Harmful to aquatic life with long lasting effects. Harmful to fish and other water organisms. Keep out of waterways. It is toxic to plants, wildlife and domestic animals as well.

Precautionary Statements – Preventions

- Do not get in Eyes, on Skin or on Clothing. Wash face, hands and any exposed skin thoroughly after handling
- Do not eat, drink or smoke when using this product
- Use only with adequate ventilation, use only outdoors or in a well-ventilated area
- Do not breathe dust/fume/gas/mist/vapors/spray
- Wear protective dust/mask/eye protection/face protection
- Keep container closed.
Immediately call A POISON CENTER or doctor/physician
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing immediately call a POISON CONTROL or doctor/physician
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower Wash contaminated clothing before reuse
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Immediately call a POISON CENTER or doctor/physician
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician, Rinse mouth, Do not induce vomiting!

Precautionary Statements – Storage
Store locked up
Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements –Disposal
Disposed of contents/container to an approved waste disposal plant

3. Composition/information on ingredients

</tr>
</tbody>
</table>

4. First aid measures

Eye contact: Get medical aid immediately. Do NOT allow victim to rub or keep eyes closed. Check for and remove any contact lenses if easy to do so. Immediately flush eyes with running water for at least 30 minutes, keeping eyelids apart. Use cool running water. Do not use an eye ointment.

Skin contact: Get medical aid immediately. Immediately flush skin with plenty of soap and water for at least 15 minutes while removing contaminated clothing and shoes. Discard contaminated clothing in a manner which limits further exposure. Destroy contaminated shoes. Wash contaminated clothing before reusing.

Inhalation: Get medical aid immediately. Remove from exposure to fresh air immediately. If breathing is difficult, give oxygen. Do NOT use mouth-to-mouth resuscitation. If breathing has ceased apply artificial respiration using oxygen and suitable mechanical device such as a bag and a mask

Ingestion: Get emergency medical attention IMMEDIATELY. Careful evacuation of stomach by medical personnel is imperative

Note: SEEP PROMPT MEDICAL ATTENTION FOR EYE CONTACT OR INGESTION. IF ANY SYMPTOMS PERSIST CONSULT A PHYSICIAN.

Note to physician Persons with pre-existing skin disorders or impaired respiratory or pulmonary function may be at increased risk to the effects of this substance. Treat symptomatically and supportively.

5. Fire-fighting measures

Flash point: 94ºC
Extinguishing media:
Suitable: Use extinguishing media appropriate to primary source of fire. Keep containers cool – must be hot to burn.
Explosive Limits: Not a safety factor due to low volatility
Special exposure hazards: In a fire or if heated, a pressure increase will occur and the container may burst
Hazardous Combustion: Carbon monoxide, carbon dioxide, corrosive, toxic oxides of sulfur, halogenated compounds, metal oxide/oxides
Environment precaution: Dike and collect water used to fight fire since run off will be slippery and can cause environmental damage
Special protective equipment for fire-fighters: Self contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode, and protective clothing should be worn while fighting fires involving chemicals

High End Pot Soap
6. Accidental release measures

Personal precautions: Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Protective clothing should be worn while handling spills.

Environmental precautions: Avoid release to the environment. The toll free number for the U.S. coast Guard National Response Center is (800) 242-8802

Methods for cleaning up

Small spill: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor

Large spill: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Prevent entry into waterways, sewer, basement or confined areas. Following product recovery. Flush area with water.

7. Handling and storage

Handling: Handle in accordance with good industrial hygiene and safety practice. Use personal protection recommended in Section 8. Avoid contact with skin, eyes or clothing. Wash face, hands, and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Do not taste or swallow. Use only outdoors or in a well-ventilated area. Avoid prolonged exposure. Do not breathe dust/fume/gas/mist/vapors/spray. Observe good industrial hygiene practices.

Storage Protect material from direct sunlight. Do not eat, drink or smoke when using this product. Keep container tightly closed and store in a cool, dry and well-ventilated place. Store locked up.

8. Exposure controls/personal protection

Consult local authorities for acceptable exposure limits.

Engineering Controls Apply technical measures to comply with the occupational exposure limits. Local exhaust ventilation recommended. Eye wash stations. Showers.

Individual-protection measures, such as personal protective equipment

Eye/Face Protection Wear safety glasses with side shield (or goggles) and a face shield

Skin and Body Protection Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier. Wear appropriate chemical resistant clothing.

Respiratory Protection Ensure adequate ventilation, especially in confined areas. In case of inadequate ventilation wear respiratory protection. Approved/certified dust respirator or equivalent.

General Hygiene considerations Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse. Wash face, hands and any exposed skin thoroughly after handling. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants

### 11. Toxicological information

**Information on likely routes of exposure**

- **Eye Contact**: Causes serious eye irritation
- **Skin Contact**: Causes severe skin irritation
- **Inhalation**: May cause irritation to the respiratory system. Prolonged inhalation may be harmful
- **Ingestion**: Causes digestive tract burns. Harmful if swallowed
- **Symptoms related to the physical, chemical and toxicological characteristics**: Burning sensation and skin irritation. Causes serious eye irritation/damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Coughing.

**Chronic**: Repeated exposure can cause cumulative ulceration and pulmonary edema

**Information on toxicological effects**

- **Acute toxicity**: Harmful if swallowed
- **Chronic effects**: Prolonged inhalation may be harmful
- **Reproductive toxicity**: This product is not expected to cause reproductive or developmental effects.

**Chronic Toxicity**: Unknown  
**Carcinogenicity**: Unknown

### 12. Ecological information

**Ecotoxicity**: Toxic to aquatic life. Harmful to aquatic life with long lasting effects

When neutralized, product is biodegradable under most definitions of the term. In the un-neutralized acid form this material is toxic to most aquatic and terrestrial plants and other life forms.

### 13. Disposal considerations

**Waste disposal**: The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a license waste contactor. Disposal of this product, solutions and any by products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contract with soil, waterways, drains and sewers.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.
14. Transport information

DOT (U.S.): Not regulated

15. Regulatory information

US State regulations

US California Proposition 65
Warning: This product may contain trace of Cocamide DEA (68603-42-9, DEA (111-42-2) and ethylene oxide (75-21-8)

Warning: this product contains a chemical known to the State of California to cause cancer.

US – California Proposition 65 – CRT: Listed date/Carcinogenic substance
1,4-dioxane (CAS 123-91-1) Listed: January 1, 1968
