1. Product and company identification

Product Name: Hi-Velocity Degreaser  
UN/ID No.: DOT (U.S.): Not regulated

Recommended use of the chemical and restrictions on use

Recommended Use: For Industrial and Commercial Use

Supplier: Butler Chemicals, Inc.  
3070 E. Ceena CT.  
Anaheim, CA. 92806

Print date: May 26, 2017

Responsible name: K.B.

In case of emergency: HEALTH EMERGENCIES — SPILL EMERGENCIES  
CALL INFOTRAC 1(800) 535-5053

Product type: Blend

2. Hazards identification

<table>
<thead>
<tr>
<th>Appearance:</th>
<th>Light amber</th>
<th>Physical State:</th>
<th>Liquid</th>
<th>Odor:</th>
<th>Mild odor</th>
</tr>
</thead>
</table>

</table>

**SIGNAL WORD:** Warning

**Hazard Statement:**

Causes serious eye irritation  
Harmful if swallowed  
Harmful by inhalation  
Causes skin irritation

**Potential Health Effects**

**Exposure routes:** Inhalation, Skin absorption, Skin contact, Eye contact, Ingestion

**Eye contact:** Eye contact may result in corneal injury. Contact causes serious eye irritation. Do not get this material in contact with eyes.

**Inhalation:** Do not breathe dust/fume/gas/mist/vapors/spray. Prolonged inhalation may be harmful.
**Ingestion:**
Do not ingest. Harmful if swallowed, will cause throat irritation.

**Precautionary Statements – Preventions**

Keep away from children, Read label before use.
Do not get in eyes, on skin, or on clothing.
Avoid breathing mist or spray.
Do not take internally. Harmful if swallowed
Use with adequate ventilation and wear respiratory protection when exposure to mist or spray is possible.
When handling, wear chemical splash goggles, face shield, rubber gloves and protective clothing.
Wash thoroughly after handling as contact or exposure can cause irritation.
Avoid contact with acidic materials.
Keep container closed.

**Precautionary Statements – Response**

Immediately call a POISON CENTER or doctor/physician
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing immediately call a POISON CENTER or doctor/physician.
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower, wash contaminated clothing before reuse. Get medical attention if irritation develops and persists.
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable before breathing. Immediately call a POISON CENTER or doctor/physician.
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Rinse Mouth. Do NOT induce vomiting.

**Precautionary Statements – Storage**

Store locked up
Store in a well-ventilated place.
Keep container tightly closed.

**Precautionary Statements – Disposal**

Dispose of contents/container to an approved waste disposal plant

### 3. Composition/information on ingredients

<table>
<thead>
<tr>
<th>Name</th>
<th>CAS number</th>
<th>%</th>

<tbody>
<tr>
<td>Tetrasodium ethylenediamine tetraacetate</td>
<td>64-02-8</td>
<td>&lt;12.00</td>
</tr>
<tr>
<td>Ethoxylated Alcohols</td>
<td>Proprietary</td>
<td>&gt;12.00</td>
</tr>
</tbody>
</table>

**4. First aid measures**

**Eye contact:**
IMMEDIATELY flush eyes gently with a directed stream of water for at least 30 minutes while forcibly holding eyelids apart to ensure complete irrigation of all eye and lid tissue. Remove contact lenses, if present and easy to do so. Continue rinsing. GET MEDICAL ATTENTION IMMEDIATELY.

**Skin contact:**
Flush skin thoroughly with cool water for at least 15 minutes. Remove contaminated clothing and wash clothing before reuse. If irritation occurs and persists, GET MEDICAL ATTENTION.

**Inhalation:**
Remove to fresh air. If breathing is difficult, have trained person administer oxygen. Keep at rest in a position comfortable for breathing. If respiration stops, give mouth-mouth resuscitation. GET PROMPT MEDICAL ATTENTION IF SYMPTOMS DEVELOP.

**Ingestion:**
NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. If swallowed, DO NOT INDUCE VOMITING. Contact a physician, medical facility, or poison control center for advice about whether to induce vomiting. If possible, do not leave individual unattended. GET MEDICAL ATTENTION IMMEDIATELY.

**General advice**
Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.
Note to physician

Provide general supportive measures and treat symptomatically.

5. Fire-fighting measures

<table>
<thead>
<tr>
<th>Fire Hazard</th>
<th>Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes. May react with chemically reactive metals such as aluminum, zinc, magnesium, copper, etc. to release hydrogen gas which can form explosive mixtures in air</th>
</tr>
</thead>
<tbody>
<tr>
<td>Extinguishing media</td>
<td>Use extinguishing agents appropriate for surrounding fire</td>
</tr>
<tr>
<td>Unsuitable extinguishing media</td>
<td>No data available</td>
</tr>
<tr>
<td>Special protective equipment for firefighters</td>
<td>In the event of fire, wear self-contained breathing apparatus. Thoroughly decontaminate firefighting equipment including all fire fighting wearing apparel after the incident.</td>
</tr>
<tr>
<td>Specific methods</td>
<td>Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Self-contained breathing apparatus and full protective clothing must be worn in case of fire. In the event of fire and/or explosion do not breathe fumes.</td>
</tr>
</tbody>
</table>

6. Accidental release measures

Personal precautions: Wear protective clothing as described in Section 8 of this safety data sheet. Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Only trained and properly protected personnel must be involved in clean-up operations. Ventilate area of leak or spill. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Use appropriate containment to avoid environmental contamination. Transfer by mechanical means such as vacuum truck to a salvage tank or other suitable container for recovery or safe disposal. Local authorities should be advised in significant spillages cannot be contained. For personal protection, see section of the SDS.

Environmental precautions: Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information. See Section 13, Disposal Considerations, for additional information.

Methods for Containment: Stop the flow of material, if this is without risk. Prevent further leakage or spillage if safe to do so. Dike spill area and cap leaking containers as necessary to prevent further spreading of spilled material. Collect spillage. Absorb spilled liquid with suitable material such as dirt or sand. Wash the spill site with water. Prevent entry into waterways, sewer, basements or confined areas.

Methods for Clean-Up: Pick up and transfer to properly labeled containers. Ventilate the contaminated area. Wear appropriate protective equipment and clothing during clean-up. Should not be released into the environment. Prevent product from entering drains.

Large spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Do not allow material to contaminate ground water system. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. This material and its container must be disposed of as hazardous waste. For waste disposal, see section 13 of the SDS.
7. Handling and storage

Handling: Handle in accordance with good industrial hygiene and safety practice. Use personal protection recommended in Section 8. Avoid contact with skin, eyes or clothing. Wash face, hands and any exposed skin thoroughly after handling. Do not breathe dust/fume/gas/mist/vapors/spray.

8. Exposure controls/personal protection

Consult local authorities for acceptable exposure limits.

Engineering Controls: Explosion-proof general and local exhaust ventilation. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Local exhaust ventilation recommended. Eye wash stations. Showers.

Apply technical measures to comply with the occupational exposure limits.

Individual protection measures, such as personal protective equipment:

| Personal protective equipment | Avoid contact with skin. Avoid contact with eyes. Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standard and in discussion with the supplier of the personal protective equipment. |
| General Eye/face Protection | Wear chemical anti-splash safety goggles. Do not get in eyes. Eye wash fountain is recommended. |
| Skin and body protection | Avoid contact with the skin. Wear suitable protective clothing. Wear rubber gloves. Suitable protective clothing. |
| Respiratory protection | In case of insufficient ventilation, wear suitable respiratory equipment. If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. |
| General hygiene considerations | When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |

9. Physical and chemical properties

| Physical state | Liquid |
| Color | Light Amber |
| VOC | 45.20 Gr. Per Liter |
| Boiling point | 212°F |
| Solubility in water | 100% |
| Percent Volatile by weight | 13% |
| Specific Gravity (H20=1) | Approx. 1 |
| Vapor Pressure | Not determined |
| Evaporation Rate (Butylacetate=1) | Slower than water |
| pH | 12% |
| Flash Point | Non Flammable |

10. Stability reactivity

Stability: Under normal conditions, the material is stable.
### 1. Conditions to avoid

<table>
<thead>
<tr>
<th>Conditions to avoid</th>
<th>Avoid extreme heat and direct sunlight. Avoid temperatures exceeding the flash point. Contact with incompatible materials.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Incompatible Products</th>
<th>Acids, Flammable liquids, Halogenated compounds, Prolonged contact with aluminum, brass, bronze, copper, lead, tin, zinc or other alkali sensitive metals or alloys</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Possibility of hazardous reactions</th>
<th>No dangerous reaction known under conditions of normal use</th>
</tr>
</thead>
</table>

### 11. Toxicological information

**Toxicity:**
When in solution, this material will affect all tissues with which it comes in contact. The severity of the tissue damage is a function of its concentration, the length of tissue contact time, and local tissue conditions. After exposure there may be a time delay before irritation and other effects occur. This material is a strong irritant and is corrosive to the skin, eyes, and mucous membranes. This material may cause severe burns and permanent damage to any tissue with which it comes into contact.

**Sensitization**
Not classified

**Acute effects**
May be harmful in contact with skin. Expected to be a low hazard for usual industrial or commercial handling by trained personnel.

**Local effects**
Irritating to skin. Contact may irritate or burn eyes

**Chronic Effects**
Hazardous by OSHA criteria. Prolonged inhalation may be harmful.

**Carcinogenicity**
This product is not considered to be a carcinogen in IARC, ACGIH, NTP, or OSHA

**Skin corrosion/irritation**
Irritating to skin. Prolonged skin contact may cause temporary irritation.

**Mutagenicity**
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

**Reproductive effects**
This product is not expected to cause reproductive or developmental effects.

**Symptoms and target organs**
Direct contact with eyes may cause temporary irritation. Exposure may cause temporary irritation, redness, or discomfort. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Moderate skin irritation.

**CARCINOGENICITY:**
This product is not classified as a carcinogen by NTP, IARC or OSHA

### 12. Ecological information

**Ecological Hazards:**
This material has exhibited moderate toxicity to aquatic organisms.

### 13. Disposal considerations

**Waste disposal:**
The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a license waste contactor. Disposal of this product, solutions and any by products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contract with soil, waterways, drains and sewers.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

### 14. Transport information

**U.S. Dot:** Not Regulated

### 15. Regulatory information

**Materials in non-bulk quantities shipped domestically with the United States are not-regulated.**

**EPCRA EXTREMELY HAZARDOUS SUBSTANCES (40 CFR 355.30):** Not regulated
**EPCRA SECTIONS 311/312 HAZARD CATEGORIES (40 CFR 370.10):** Acute Health Hazard

**EPCRA SECTION 313 (40 CFR 372.65):** Not regulated

**OSHA PROCESS SAFETY (PSM) (29 CFR 1910.119):** Not regulated

**FDA:** This material have Generally Recognized as Safe (GRAS) status under specific FDA regulations. Additional information is available from the Code of Federal Regulations which is accessible on the FDA’s website. This product is not produced under all current Good Manufacturing Practices (CGMP) requirements as defined by the Food and Drug Administration (FDA).

**NATIONAL INVENTORY STATUS**

**U.S. INVENTORY STATUS: Toxic Substance Control Act (TSCA):** All components are listed or exempt

**TscA 12(b):** This product is not subject to export notification

**STATE REGULATIONS**

**US – California Proposition 65** – This product is not listed, but it may contain impurities/trace elements known to the State of California to cause cancer or reproductive toxicity as listed under Proposition 65 State Drinking Water and Toxic Enforcement Act.
